NRG-X Labs' CEO Joshua b Smith begins training preparations for a 2011 summit expedition bid for the highest mountain peak in North America.

NRG-X Labs' CEO Joshua b Smith begins training preparations for a 2011 summit expedition bid for the highest mountain peak in North America with the highest vertical relief in the world... Denali, Alaska. Mr. Smith has begun training preparations in January of 2010 and will make a summit bid in August of 2010 on Mt. Rainier in Washington as an expedition training ground with his eyes firmly set on a 2011 Denali summit expedition.

NRG-X Labs sport supplements represent the highest caliber in nutritional and athletic performance and truly live up to their claims of "Excellence in Nutrition". "When I founded NRG-X Labs I set out to prove that Godly and Biblical principals of excellence could be successfully applied to an largely crooked industry, I feel that our products purity and performance will help immensely in the training for this world class summit bid." said Joshua b Smith. "Since childhood I have wanted to climb Denali and become proficient in mountaineering with future goals of climbing Annapurna, Everest and maybe even K2 someday... I believe that now is a great time to get started and start moving toward those dreams."

Training logs, videos and more will be posted frequently on the NRG-X Labs' "NRG BLOG" at <http://nrgxlabs.blogspot.com/>
